

Ultimate

Nordica 12i

- new 12" subwoofer

Ultimate series Nordica 12i is an upgraded version of Nordica 12. To improve the reliability and sound quality we have integrated the litz wires in the spider on this new version.

The Nordica 12i uses the DLS cast basket with an aluminum cone body and wide surround.

Thru SQ competition subwoofer, the best we ever made.

Balanced Drive technology for lower distortion and detailed low bass reproduction.
